Susa Creek School

Principal's Message

Tansi Hello, Susa Creek School and AWN families. Working in the Susa Creek community has been my pleasure for the past few weeks. I am excited to explore the other corporations within the AWN. One of my goals is to fully immerse myself in the AWN language and culture through meaningful experiences and collaboration with members of the community.

Our first month has been engaging and successful, where students readjusted their schedules and created positive relationships with their peers. Despite the many challenges, I want to thank all family members for sending the children every day. I look forward to more collaboration with the community to help our students with learning the language and culture.

- Oct. 31, 2023: Halloween (Students can wear a costume)

Community Engagement

In our first week back students and families came together to erect our school teepee. The students learned about the different teachings and what each pole represented. Our community member Robert and his son played the drums, sang, and blessed the teepee. The students also participated in smudging during construction. It was great seeing the families and community members support our school!

Students have been utilizing the space to facilitate reading buddies, sharing circle and completing assignments.

Student Success

Our upper elementary students participated in some skills-building with their teacher Mr. Delisle. They built toolboxes and birdhouses to bring home. The students were elated with their results and are anticipating their next projects.

Nehiyaw Kisikaw

Each month the students will be participating in their culture day event. The activity for each month is usually decided by the students in collaboration with the teachers. For September the students decided that they wanted to do some beading and make their dream catchers.

Have Your Say!

We would love to hear from you! Please let us know if you have any questions or thoughts about anything going on at the school. Write your question or feedback below and return this page back to the school. Thank you!
